## Technical Video Signal

From 2017 a new workflow has been created to follow the constant improvement of competition technologies and On Venue Results services ICF is providing to judges, teams and LOC:

### Judges & TVS production / FEED A (odd) + FEED B (even)

- START SIGNALS THURSDAY @ 16h00 (Tech. Rehearsal full length), till the end of the SLALOM events on Sunday @ 15h00.
- 6 Cameras LIVE (4 operated & 2 fixed) + TV graphics
- ICF TV is only providing the 6 Cameras and the 4 operators. All Camera signals are routed to the OB VAN for Image Control, then Siwi Data is wiring all signals back to the OVR position to have the 2 switchers "cutting" the Feed A & B for judges and TVS
- These 2 feeds are entirely directed, "switched" by Siwi Data with their equipment installed inside the OVR area and will be provided in the video tent.

Remark: TVS is a service produced by a company hired through ICF. The host will undertake the strongest effort to provide the best quality but cannot guarantee a 100% coverage.

## Accreditation

In order to keep pace with the increasing requirements and to provide a high quality service to the athletes, team leaders and team staff members, the host will charge an **accreditation fee of 105 € per person**
